Josh Dixon

I'm a developer and I create modern, responsive and user-friendly web experiences. I'm a creative individual with a passion for all things design. I have a background in photography, graphic design and e-commerce. Aims to work in an environment of continual improvement and strives for ever higher performance.

Programming Experience

Development Portfolio Website

My portfolio website demonstrates my ability to apply my knowledge of wireframing and accessible design into a fully functioning responsive site. Built utilising HTML, CSS, JavaScript and the Bootstrap framework.

The Masters Golf Tournament Website

This web page was built using the Materialize UI component library and hosted with Netlify. The page is responsive and was built with user accessibility in mind.
